## Chart of Services Review

Service ID 608 was not included in any of the above reporting elements during the previous year. Deactivating the service will have no effect on reporting.

### **Analysis**

Service ID 608 was created for a duration-limited project that ended several years prior to this review. As a project-affiliated temporary service, Service ID 608 should have included a deactivation date at the time of its creation. Further use of the service would be inconsistent with its purpose. The service is no longer required for reporting.

**Recommendation** Deactivate service.
